Notes:

1. Included are all local authority maintained primary and secondary schools in England reported by local authorities on their 2006-07 and 2007-08 Section 52 Budget Statement (Table 2) and 2006-07 Section 52 Outturn Statement (Table B).
2. Budget share plus grants allocated to schools is the combination of the schools individual budget share plus any revenue grants allocated to the school at the start of the financial year. For 2006-07 and 2007-08 this comprises of the Total Budget Share plus any School Standards Grant (including personalisation), School Development Grant, Other Standards Fund Allocation, Devolved School Meals Grant, Targeted School Meals Grant, Threshold and Performance Pay and Support for Schools in Financial Difficulty allocated to the school at the start of the financial year. This does not include any capital funding allocated to schools. Data are drawn from local authorities' Section 52 Budget Statements (Table 2) submitted to the DCSF (formally DfES). 2007-08 data is subject to change by the local authority.
3. The amount of money allocated to a school depends very much on the individual local authorities' own policy for funding their schools. Different authorities retain varying amounts of funding centrally to spend on behalf of their schools while others chose to give schools more autonomy over how they spend their money by devolving more funding to the individual school.
4. The January 2007 pupil numbers used to calculate the per pupil amounts are as reported by the local authority on their Section 52 Budget Statement comprising of the full time equivalent number pupils registered at the school used for the initial determination of the school's budget share under the local authority's allocation formula.
5. School based expenditure includes only expenditure incurred directly by local authority maintained schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure. The expenditure are drawn from local authorities 2006-07 Section 52 Outturn Statements (Table A) submitted to the DCSF. 2006-07 data remains provisional and is subject to change by the local authority. The pupil data are drawn from the DCSF Annual Schools Census adjusted to be on a financial year basis.
6. Secondary school based expenditure includes any sixth form expenditure by local authority maintained secondary schools.
7. Figures are rounded to the nearest £10.
8. Cash terms figures as reported by local authorities as at 7th February 2008.
